Attendance Policy and Absences

Attendance is required at all practices (including weekend practices), team meetings, team dinners and races.

- 1 An **excused** absence would be illness or an absence due to a school obligation involving a grade. A student may also be excused from a practice if they are race training with a mountain race team. The student must notify the coach no later than the night before to the absence.
- 2 An **unexcused** absence would include any absence without prior notification or anything involving flexibility such as work, doctor appointments, etc. A student with one unexcused absence will not race in the next race. A student with a second unexcused absence will be dismissed from the program.

Team Ranking

Team rank is calculated in the following manner in order to determine qualifications for Varsity and Junior Varsity credit:

- 1 Each racer receives a finish position relative to his/her teammates for each race throughout the season.
- 2 Any unacceptable absence will result in the racer being assessed one additional penalty equivalent to the number of racers on his/her team.
- 3 The finish positions will be averaged (the poorest finish is deleted), along with any penalty points assessed during the season for unexcused absences, to yield a final average finish position.
- 4 This average finish position for each racer is then compared to the average finish positions of the other racers on his/her team to determine final team placing .

Varsity and Junior Varsity Credit

Important: Racers are not eligible for Varsity or Junior Varsity credit if they have missed more than one regular season race.

- 1 In order to qualify for a Varsity position, a racer must place in the top 10 (or the top 60% if the team has less than 16 members when the final team positions are determined) of his/her respective team according to the final team placing.
- 2 For the purpose of this calculation only, team members who are not eligible for Varsity or Junior Varsity credit due to absences will not be counted as team members.
- 3 There may be instances when an athlete who has not accumulated the required points may qualify for a Varsity letter . This athlete will have proven himself on the mountain, worked hard at all given tasks, and have been a positive contributing member of the team. This decision will be made by the coaching staff and the Athletic Director, and we reserve the right to do so according to our own judgment. Thank you for your understanding.
- 4 All racers not eligible for Varsity credit will be considered for Junior Varsity or Freshman credit.

I, _____, have read, understood, and agree to abide by the above training rules, time commitment requirements, absence penalties, and team ranking rules.
